mobifreedom

How to setup a PayPal account & configure MobiFreedom to use it.

For your MobiFreedom account to accept payments you will need to configure it to use PayPal.
(If you already have a PayPal seller account, please skip this section)

This shows you how to configure your MobiFreedom account to use PayPal and if need be, how to set-up the PayPal account itself.

To Open a PayPal Account

Go to http://www.paypal.com

↓

Click the 'Sign Up' link at top of page

↓

Click 'Sign Up Now' under 'PayPal for Business'
(must have selling capability)

↓

Select 'Website Payments Standard' then click continue

↓

Complete your account details

↓

Select 'Go to my business setup'

↓

Setup my payment solution

↓

Respond to activation email to complete PayPal setup

mobifreedom

Configuring your MobiFreedom account to use PayPal.

Login to your PayPal account

Click Profile

Click API access

Select Option 2 - Request API credentials

Select Request API signature agree & submit

Take these details & add them to the 'Payment Methods' section in your MobiFreedom account

API UserName: (Hidden)

API Password: (Hidden)

API Signature: (Hidden)

Click 'Save' & your account should be ready to accept PayPal payments

For MobiFreedom you will require from PayPal:

- API Username
- API Password
- API Signature
